Engineering Group Report 2026

The Engineering Group currently has 52 members and we meet monthly at Godstone Baptist Church as it has excellent AVA facilities and a coffee bar for our refreshments.

This year we have had talks and presentations on:

- The engineering and development of television,
- The construction of the Mosquito aircraft,
- Videos on the development of radio and video recorders,
- The Godstone sinkhole and mines,
- The development of sailing ships, submachine guns and machine pistols,
- Spitfire v Hurricane,
- British built Citroens and
- The engineering and development of Croydon Airport.
-

Every few months we also arrange visits to place of interest which this year have included The Historic Chatham Dockyard, a walking tour of Kenley Aerodrome and the Biggin Hill Spitfire Hangar.

Thanks to our refreshments team who serve us with tea, coffee, cakes and biscuits at every monthly meeting.

New members are always welcome so if you are interested in joining us, please contact me via the website

Chris Marvin
Group Leader
