Photography 2 Report 2026

The group, which is now 6 years old, continued to meet regularly every fortnight throughout the year, mostly on zoom but with a few in person meetings and membership stayed steady at 14 members throughout the year.

We continued our use of regular themes for the fortnight, inviting our members to post up to three images taken in the fortnight reflecting the theme. Just recently we've introduced an objective judge by using one of the AI apps like ChatGPT to assess our photos and give suggestions for improvements.

Our themes for the year have included:

- Windows
- Patterns
- Starting with S
- Around the Home
- The rule of thirds
- Point of Interest
- Hot or Hat
- Letters and Numbers
- Stripes
- Circles
- Fifty Shades of Green

We have now had over 3100 photos posted to our Flickr group page since we started in mid 2021. Our leading poster is Alison G with over 400 photos!

We were lucky to have previous group member Chris C come to the group leader's house to show us how to use Light Pads for photography and for a bit of a social.

All suggestions for future themes are welcome as are new members. Thanks to the regular attendees of the group for making it most enjoyable to facilitate.

Philip Lawson
Group Leader
